

# VIJAY JD

[work.vijay07appu@gmail.com](mailto:work.vijay07appu@gmail.com) | +91-9535931401 | [github.com/vijay07appu](https://github.com/vijay07appu)

I am a motivated upcoming graduate, seeking a challenging software engineering opportunity, where I can apply my skills in building and enhancing web applications. Eager to contribute to product development, integrate with third-party systems, and gain valuable experience in a dynamic environment.

## Education

---

**Malnad College of Engineering, Karnataka, India**

**2020 - 2024**

- Computer Science, CGPA: **9.2**

**Jnanasagara PU College, Karnataka, India**

**2018 - 2020**

- PCMC, Aggregate: **92%**

**Poornachandra Public School, Karnataka, India**

**2017 - 2018**

- CBSE (Class X), CGPA: **8.8**

## Skills

---

**Programming:** C | Java | Kotlin | HTML | CSS | JavaScript | React.js | MySQL.

**Tools:** IntelliJ | Android Studio | Git | GitHub | Vite | Redux Toolkit | Firebase | Appwrite.

**Framework:** Tailwindcss | Bootstrap.

## Projects

---

**ShopNest - [Link](#)**

*It is a web application focused on providing e-commerce services, offering a platform for users to browse, shop, and purchase a wide range of products online*

- Developed a comprehensive web application featuring user authentication functionalities, leveraging Firebase database for secure data storage. Seamlessly integrated a dedicated admin dashboard to streamline administrative tasks and enhance management efficiency.
- This web application seamlessly integrates with Razorpay, providing users with a streamlined payment gateway experience for smooth transactions.
- Tech Used - HTML, CSS, Javascript, Reactjs, Vite, Tailwindcss, LocalStorage, ReduxToolkit, Firebase, Netlify.

**Movizz - [Link](#)**

*It is a web application focuses on providing video streaming services.*

- This application integrates a user authentication feature. This ensures that users can securely access and enjoy video content by logging in and watch videos directly through their web browser without the need for downloading.
- Tech Used – HTML, CSS, Javascript, Reactjs, Vite, ReduxToolkit, Tailwindcss, Firebase, Netlify.

## Achievements

---

**HACK.MCE 3.0**

Participated in a hackathon and secured first place, where we built a website for the Training and Placement Office.

## Languages

---

**Kannada** - Native or Bilingual Proficiency

**English** - Professional Working Proficiency

**Hindi** - Elementary Proficiency
